DAMANA®

Respecting and reproducing the generosity of nature.

Simplicity, authenticity and joy have been at the heart of what DAMANA® does best from the very beginning.

Drawing on these core values, DAMANA® Earth and Sun was born in 2003. Since then, our collection has expanded to include DAMANA® Néroli, DAMANA® Organic Bath Line and Apothicals by DAMANA®.

To these lines are associated richness and authenticity of ingredients of natural and artisanal origin, and the desire to meet the expectations of your guests, in terms of well-being, efficiency and ecology. Our unwavering commitment to our founding values and high standards have led us to develop luxurious products that are as natural and as eco-friendly as possible.

CARE ABOUT EARTH

DAMANA® whole-heartedly embraces the Care About Earth program.

The collection is working to reduce its environmental impact by giving natural-origin ingredients a prominent place in its formulas. In the spirit of continuous reinvention, we've selected responsible alternatives to petrochemical-sourced plastic for our packaging.

In a bid to help protect natural resources such as water, DAMANA® Earth and Sun now offers a range of solid cosmetic products.

These solids, not only significantly cut back on the water needed for manufacturing, they are 100% plastic-free thanks to the FSC-certified cardboard packaging.

DAMANA[®]

Earth and Sun

The Mediterranean harbours the essence of DAMANA[®] Earth and Sun, inspiring the brand with its natural riches and the expertise to be found there.

Cleansing gel
with invigorating
extracts of citrus fruit (*Citrus*)

Citrus fruits like lemons and oranges draw strength and richness from the fertile earth and sunlight. They have energising and invigorating qualities. Citrus fruits are appreciated as genuine sources of vitality.

BOTTLES

40 ml - 1.35 fl.oz

Body & hair gel
with stimulating
extracts of sage (*Salvia officinalis*)

Sage, a shrub of the southern regions, flourishes on the sun drenched rockeries. Restoring its "overflow of sunshine", it is used both as a spice, a remedy or even as a beauty elixir for its stimulating properties.

Body lotion
with comforting extracts of
orange blossom (*Citrus dulcis flores*)

Grown under the sun, the orange is a fruit tree with flowers that give off a delicate perfume. The distillation process yields a refined water with soothing and calming qualities. Mothers, settling their children before bed, also appreciate these qualities.

BATH SALTS

30 g - 1.05 oz

Bath salts
with relaxing extracts of
jasmine (*Jasminum officinale*)

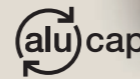

Jasmine, frequently cultivated around the coastal areas of the Mediterranean, is carefully hand picked in order to preserve the best from the flower, which offers a rare essence of soothing and relaxing qualities.

Conditioning
shampoo
with balancing extracts of juniper
(*Juniperus communis*)

A small shrub found in Central Europe, juniper has always been used as a medicinal plant. Juniperine, extracted from the berries of the plant, has a balancing effect on the body.

Conditioner
with tonic extracts
of white nettle (*Lamium album*)

White nettle (also called "white lamier") grows in abundance in the wild. This unruly and robust plant is endowed with the properties to produce an invigorating tonic.

ALL OUR FORMULAS ARE GUARANTEED:

Gentle soap
with nourishing extracts
of olive oil (*Olea europaea*)

Symbol of the Mediterranean, olives have been used since the time of Hippocrates, "Father of Medicine", for their healing qualities. The fruit from this tree symbolises fertility and wisdom, producing a rich oil with nutritious properties.

Concerned with reducing its impact on the environment, **DAMANA® Earth and Sun** is available in a range of distributors.

5 REASONS TO USE SOLID COSMETICS

1. “Soap-free” pH-neutral formulas are kind on skin.
2. The solid products are more concentrated than standard products: the quantity of product used each time is thus reduced and the products last longer.

3. They are ideal for use when travelling.
 4. Our range of solid products is packaged in FSC-certified cardboard and plastic-free.
 5. In comparison with standard formulas, the quantity of water required to manufacture them is nine times lower.
- In a nutshell, the quality of our solid products equals that of the best cosmetic products and they are easy to carry around and use.*
