Tradições

TRADIÇÕES praises the arts, it's vast and antique knowledge that is now present with traces of a unique identity that interprets its different aromas.

On a map of living memories, a homage collection of familiar fragrances has been conceived with a touch of cotton and gold. Because the smell is, in fact, the first memory.

Filigrana

Lost in centuries lies the origin of a demanding art resulting in impressive detail. To honor the people working these noble metals and the singularity of the Portuguese goldsmith, FILIGREE presents the verbena's positive energy. The citric freshness is within the essence of a line that creates moments worth of gold.

RSPO certification mirrors Real Saboaria's care in the selection of its raw materials and how committed to supporting the sustainable production of palm oil worldwide the company is.
